

EL-CRYSTAL STAR MONTESSORI SCHOOLS CURRICULUM

El-crystal Star Montessori School is a school founded on Montessori teaching principles. Our Curriculum is drawn in accordance with the Federal Ministry of Education produced by National Educational Research and Development Council and Lagos State Ministry of Education Schemes of Work.

We have trained, experienced, seasoned, committed, dedicated and motivated personnel who guide the child on the path of educating himself or herself using the “organized play” with the special Montessori materials, the child investigates, discovers, conquers, achieves and develops the ability to concentrate, be responsible for his/her work and be able to put to use what he or she has learnt.

His or Her thought will be capable of developing along new lines that will truly build an independent individual useful to him/herself, to the family and the society at large.
